April 21
6-8 pm**

Stop by Anytime

**W. F. West High School
Commons Building
342 SW 16th Street
Chehalis, WA**

Meeting facilities are wheelchair accessible and children are welcome.

Project Vicinity Map

The Washington State Department of Transportation (WSDOT) is beginning an environmental review and design process for widening I-5 from north of Rush Road interchange to just south of the 13th Street interchange, and the construction of the LaBree Road interchange near Chehalis, in Lewis County.

WSDOT is planning to prepare an Environmental Assessment in accordance with the National Environmental Policy Act (NEPA). This document will be adopted for Washington State Environmental Policy Act (SEPA) compliance. Consistent with NEPA and SEPA, WSDOT will conduct studies to assess the potential social, economic and environmental effects of the proposed project.

As part of the environmental process interested community members and agency representatives are invited to learn more about the project and offer input on the project components and environmental issues at the open house on April 21. Representatives from WSDOT will be present to answer your questions and receive your input. If you cannot make the meeting, we still welcome your comments.
